NOTICE TO U. S. MAIL CONTRACTORS AND THE PUBLIC. AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,

T HAS BEENLONG THE PRACTICE of this office to pay the drafts drawn and nego-tiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommo-date the contractors, and meet their necessities, in advance of the regular and slewer process of paying by the drafts or warrants of the department and was intended only to apply to one draft per route from each contractor for the whole amount, (deducting fines, collections, &c.,) of his quarterly (deducting fines, collections, &c.,) of his quarterly pay; but it has been, and is quite generally so misunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceeding in the aggregate, the contract pay for the quarter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private ac-counts of contractors, and thrown upon the exchanges of the country, with a quasi sanction of this office, a species of paper currency unauthorsed by the laws.

this office, a species of paper currency unauthorised by the laws.

It not unfrequently occurs, too, that this office is exposed to great and unnecessary risk in determining upon the genuineness of the signatures to the assignments or endorsements of the various persons through whose hands these drafts are made to pass before their presentation.

It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1854, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be specified) on which it is drawn; and the signature thereto should be attested by the postmaster at the place where it may be drawn, and one other witness; and each assignment thereof should be attested by two each assignment thereof should be attested by two

DATENT GAS REGULATOR. The inventor (Dr. Kidder) of this economical and useful instrument deserves the thanks of the gasconsuming community. The saving effected by the use of it will be found fully 25 per cent. in every person's gas bill. It can be so adjusted as to supply the gas at any desired pressure less than that of the street, and when once adjusted, the that of the street, and when once adjusted, the Regulator will continue to supply the gas at that pressure uniformly, without requiring further care or attention, and independent of all the fluctuations of the street pressure. An additional advantage obtained by this Regulator is a light of a more agreeable quality, in place of the bluish white color of the ordinary gas light, occasioned by the high pressure at which the gas is consumed. As an evidence of its practical utility, it is now in operation in some of the principal notels and large stores in New York city, who all bear favorable testimony to its value. It has also received the united commendations of the press.

T ENRY'S INVIGORATING CORDIAL. Purely Vegetable in its composition.—This avaluable Cordial is extracted from Herbs and invaluable Cordial is extracted from Herbs and Rrits, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hæmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any cause, such as

Debility arising from any canse, such as weakness from sickness, where the patient has been confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a rosic medicine is required, it will be found equal if not superior to any compound ever used.

To Females.—Henry's Invigorating Cordial is one of the most invaluable medicines in the many complaints to which females are subject. It as-

sists nature to brace the whole system, check ex-cesses, and creates renewed health and happiness. ess suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

Nervous Debility, weakness of the system, and premature decay. Many of you may now be suffering, misled as to the cause or source of disease. To those, then, who by excess have brought on themselves premature impotency, involuntary seminal emissions, weakness and shrivelling the genital organs, nervous affection, or any other consequences of unrestricted indulgence of the sensual passions, occasioning the necessity of re-nouncing the felicities of

Marriage, lessening both mental and bodily ca-pacity, hold! Henry's Invigorating Cordial, a medi-cine that is purely vegetable, will aid nature to re-store those important functions to a healthy state, and will prove of service to you. It possesses rare

virtues, is a general remover of disease, and strengthener of the system.

As a Tonic Medicine, it is unsurpassed. We do not place this cordial on a footing with quack medicines, and, as is customary, append a long list of recommendations, certificates, &c., begin-ning with "Hear what the Preacher says," and such like; it is not necessary, for "Henry's Invig-orating Cordial" only needs a trial to prove that

will accomplish all we say.

PROSPECTUS OF THE NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the public.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. pose to issue a paper at the seat of the State gov-ernment. In the field of editorial enterprise, there is ample room for those who are now holding pois ample room for those who are now holding po-sition, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once import-ant, and to us peculiarly agreeable. The attrac-tions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness

persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such lead in the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the Statesman a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of integral improvement nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina.

The general objects of the proposed paper being The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sus-

to state the particular views which are to be sustained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their primary assemblies, and which has been so successfully introduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people; and not of intriguers; restoring power to those who, by sufferance, have tolerated its temporary usurpation.

its temporary usurpation.

2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good old State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the right

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democrac 4th. They will advocate all such measures of i ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exe explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

treaties, and entirely consistent with the nat TERMS.—For the semi-weekly, \$4 per annum and for the weekly, \$2; payment in advance.

Edited by T. Baldwin and J. Thomas, M. D. With a new and superb map of the United States, engraved on steel.

The publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive, and perfect Gazetteer of the United States that has ever issued from the press. In its preparation no considerations of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its detail. Nor have the successive issues of other Gazetteers, hurried through the press to claim the market, tempted the publishers to offer their book before all the ample census (of 1850) and other material in the hands of the editors were fully digested and accerately arranged.

ample census (of 1850) and other material in the hands of the editors were fully digested and accurately arranged.

When the Gazetteer was first announced 800 pages, or at the most 900, were designed as the limit of the book. But so wast was the amount of matter, accumulated through the personal labors of the editors and their assistants, as well as through the active efforts of several thousand correspondents in all parts of the United States, the work has swelled to near 1,300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in many instances embracing statistics and populations to 1853. This gives it an intrinsic value over every other work of the kind in existence.

We therefore offer our Gazetteer confidently, as the only complete and thoroughly reliable Gazetteer of the United States yet published.

As above stated, the work is now ready, and will be published in December, 1853. Price to subscribers, \$3 50; to non-subscribers, \$4.
